

REMARKS

Reconsideration and allowance of the above-identified application are respectfully requested. Claims 1-6 remain pending, wherein claims 1-5 have been amended.

Applicants appreciate the Examiner's acknowledgement of Applicants' claim for foreign priority, and that all the certified copies of the priority document have been received. Applicants also appreciate the Examiner's consideration of the documents cited in the Information Disclosure Statement filed on August 17, 2004.

Applicants note with appreciation that claims are allowed under Ex parte Quayle.

The Office Action states that the "title of the invention is not descriptive," and requests that it be changed. Accordingly, the title has been amended.

The Abstract was objected to for minor informalities. Accordingly, the Abstract has been amended to address the informalities.

Claims 1-6 were objected to for minor informalities. Specifically, the Office Action objected to the phrase "screw cramp", and requests an explanation of this phrase. The phrase "screw cramp" is described throughout the specification:

the lamp housing has a *screw cramp* for fixing the fixing screw threaded through screw-inserting component. (Page 4, lines 1-2) (emphasis added)

The lamp housing 21 ... has a space formed therein for installing the lamp box 10, has an opening 31 for inserting and removing the lamp box 10 and a *screw cramp* for screwing on the lamp box 10. (Page 6, line 22 to page 7, line 1) (emphasis added)

The *screw cramp* 32 is disposed at the edge of the opening 31 so as to protrude upward from the lamp housing 21, and has a screw hole 33. (Page 7, lines 1-3) (emphasis added)

The detection switch 23 is disposed on top of the lamp housing 21 and farther inward than the *screw cramp* 32 (Page 7, line 25 to page 8, line 2) (emphasis added)

A state is described in which the lamp door 22 is removed, the lamp box 10 is inserted into the lamp housing 21, and the screw-inserting component 12 of the lamp box 10 is placed over the *screw cramp* 32 of the lamp housing 21. (Page 9, lines 10-13) (emphasis added)

Accordingly, Applicants respectfully submit that the application contains sufficient description of the phrase "screw cramp." Applicants note that the Office Action references a definition from Merriam-Webster's Collegiate Dictionary, Tenth Edition. However, Applicants are unable to comment on the definition because a copy of the dictionary pages was not provided.

In addition, the Office Action objected to claims 1-5 for the use of
“language that may be interpreted as functional language/for intended use.”
Accordingly, claims 1-5 have been amended to also address this issue.

All outstanding objections having been addressed, it is respectfully
submitted that the present application is in immediate condition for allowance.
Notice to this effect is earnestly solicited. If there are any questions regarding
this amendment or the application in general, a telephone call to the
undersigned would be appreciated since this should expedite the prosecution of
the application for all concerned.

If necessary to effect a timely response, this paper should be considered as
a petition for an Extension of Time sufficient to effect a timely response, and
please charge any deficiency in fees or credit any overpayments to Deposit
Account No. 05-1323 (Docket #010482.54992US).

Respectfully submitted,

August 26, 2005
